

#### 4 Ready the camera.

- Hold the camera steady with both hands—shaking or unsteady hands can blur your shots.

- To prevent pictures that are out of focus or too dark (underexposed), keep your fingers and other objects away from the lens and AF-assist illuminator.

#### 5 Frame the picture.

##### Lenses with Zoom Rings

Use the zoom ring to frame the picture in the display. Rotate the ring left to zoom out, right to zoom in.
