

AF/MF SETTING (Still Photography)

Adjust focus settings for still photography.

To display AF/MF settings, press **MENU/OK** in the photo shooting display and select the **AF/MF** (AF/MF SETTING) tab.

The options available vary with the shooting mode selected.

FOCUS AREA

Choose the focus area for autofocus, manual focus, and focus zoom (📖 87).

AF MODE

Choose the AF mode for focus modes **S** and **C** (📖 85).
