

Playback Touch Controls

When **ON** is selected for **■ BUTTON/DIAL SETTING > TOUCH SCREEN SETTING > ► TOUCH SCREEN SETTING**, touch controls can be used for the following playback operations:

- **Swipe:** Swipe a finger across the display to view other images.

- **Pinch-out:** Place two fingers on the display and spread them apart to zoom in.

- **Pinch-in:** Place two fingers on the display and slide them together to zoom out.

Pictures can be zoomed out until the entire image is visible but no further.

- **Double-tap:** Tap the display twice to zoom in on the focus point.

- **Drag:** View other areas of the image during playback zoom.
