

Problem	Solution
No panorama is recorded when the shutter button is pressed.	The indicator lamp was orange when you attempted to record a panorama: Wait until the indicator lamps turns off (📖 9).
No face is detected.	<ul style="list-style-type: none"> <li>• <b>The subject's face is obscured by sunglasses, a hat, long hair, or other objects:</b> Remove the obstructions (📖 151).</li> <li>• <b>The subject's face occupies only a small area of the frame:</b> Change the composition so that the subject's face occupies a larger area of the frame (📖 151).</li> <li>• <b>The subject's face is turned away from the camera:</b> Ask the subject to face the camera (📖 151).</li> <li>• <b>👤 FACE/EYE DETECTION SETTING is off:</b> Turn 👤 FACE/EYE DETECTION SETTING on (📖 151).</li> <li>• <b>The camera is tilted:</b> Keep the camera level.</li> <li>• <b>The subject's face is poorly lit:</b> Shoot in better light.</li> </ul>
No subject is detected.	<ul style="list-style-type: none"> <li>• <b>The subject is partially hidden:</b> Choose a vantage point where you can see as much of the subject as possible (📖 153).</li> <li>• <b>The subject occupies only a small portion of the frame:</b> Get closer to your subject so it occupies more of the frame (📖 153).</li> <li>• <b>OFF is selected for SUBJECT DETECTION SETTING:</b> Select SUBJECT DETECTION ON (📖 153).</li> <li>• <b>The subject is poorly lit:</b> Shoot in better light.</li> </ul>
