

## External Flash Units

External flash units are more powerful than their built-in counterparts. Some can function as master flash units controlling remote units via optical wireless flash control.

You may be unable to test-fire the flash in some circumstances, for example when a setup menu is displayed on the camera.

### Red-Eye Removal

Red-eye removal is available when an option other than **OFF** is selected for **[F] FLASH SETTING > RED EYE REMOVAL** and a **FACE DETECTION ON** option is selected for **[M] AF/MF SETTING > FACE/EYE DETECTION SETTING**. Red-eye removal minimizes “red-eye” caused when light from the flash is reflected from the subject’s retinas.
