

## MONOCHROMATIC COLOR

Add a reddish or bluish tinge (warm or cool color cast) to the **A** **ACROS** and **B** **MONOCHROME** monochrome film simulations. Color can be adjusted on the **WARM-COOL** and **G** (Green)–**M** (Magenta) axes.

## GRAIN EFFECT

Add a film grain effect.

### ROUGHNESS

Option	Description
<b>STRONG</b>	Choose for rougher grains.
<b>WEAK</b>	Choose for smoother grains.
<b>OFF</b>	Turn the effect off.

### SIZE

Option	Description
<b>LARGE</b>	Choose for coarser grains.
<b>SMALL</b>	Choose for finer grains.
