

 Observe the following precautions when attaching or removing (exchanging) lenses.

- Check that the lenses are free of dust and other foreign matter.
- Do not change lenses in direct sunlight or under another bright light source. Light focused into the interior of the camera could cause it to malfunction.
- Attach the lens caps before exchanging lenses.
- Do not rotate the lens while holding moving parts of the camera, such as the aperture ring.
- See the manual provided with the lens for information on use.
