

4 Press **MENU/OK** when prompted.

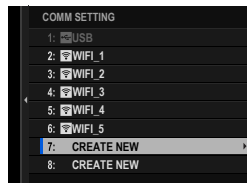

5 Select **WIRED LAN**.

6 Select **CREATE NEW** to create a new communication setting profile.

You can also select or edit existing profiles.

7 Adjust **IP ADDRESS SETTING**.

- Select **AUTO** to use an IP address assigned by the network.
- Select **MANUAL** to choose the IP address manually as described in "Connecting Using an IP Address" (p. 265).

8 Select **NEXT** to proceed after adjusting IP address settings.
