

ISO AUTO SETTING

Choose the base sensitivity, maximum sensitivity, and minimum shutter speed for use when ISO sensitivity is set to **A** (auto). Settings for **AUTO1**, **AUTO2**, and **AUTO3** can be stored separately (97).

DIGITAL TELE-CONV.

Zoom in on your subject during shooting using ultra-high-resolution digital zoom.

Option	Description
2.0x	Take pictures using 2× zoom. L - and M -size pictures are automatically cropped to size S .
1.4x	Take pictures using 1.4× zoom. L -size pictures are automatically cropped to size M .
OFF	Digital teleconverter off.

 Image quality may drop when the digital teleconverter is used.

 The digital teleconverter cannot be used when a 1.29× crop is selected during burst photography or when **ON** is selected for **SPORTS FINDER MODE**.
