

The Secondary Monitor Backlight Button

To turn on the secondary LCD monitor backlight when you find the secondary LCD monitor too dark to read, press the secondary monitor backlight button. Press the button again to turn the backlight off.

Background Color

The background color (black or white) for the secondary LCD monitor can be selected using the **SCREEN SET-UP > SUB MONITOR BACKGROUND COLOR** option in the (setup) menu. Note that the background is displayed in white whenever the secondary LCD monitor backlight is on.
