

Focus Mode (CONTINUOUS AF)

Option	Description	Sample image
 SINGLE POINT	Focus tracks subject at selected focus point. Use for subjects moving toward or away from camera.	
 ZONE	Focus tracks subject in selected focus zone. Use for subjects that are moving fairly predictably.	
 TRACKING	Focus tracks subjects moving through wide area of frame.	
 ALL	Rotate the front command dial in the focus-point selection display ( 74, 75) to cycle through AF modes in the following order:  SINGLE POINT ,  ZONE , and  TRACKING .
