

## 5 Ready the camera.

- Hold the camera steady with both hands and brace your elbows against your sides. Shaking or unsteady hands can blur your shots.

- To prevent pictures that are out of focus or too dark (underexposed), keep your fingers and other objects away from the lens and AF-assist illuminator.

## 6 Frame the picture.

### **Lenses with Zoom Rings**

Use the zoom ring to frame the picture in the display. Rotate the ring left to zoom out, right to zoom in.
