

- 14** Select **OK** to test the connection.
When a prompt is displayed stating that the test was successful, press **MENU/OK**.

 If the test ends in failure, check the communication setting profile and network settings.

- 15** Choose **SELECT** to finish creating the connection setting profile.

 The connection setting profile can also be selected later using **SELECT CONNECTION SETTING**.

- 16** Upload pictures to the FTP server ( 288).
