

MOUNT ADAPTOR SETTING

Adjust settings for lenses attached via a mount adaptor. The camera can store settings for multiple lenses (**LENS 1** through **LENS 6**).

-  **DISTORTION CORRECTION**, **COLOR SHADING CORRECTION**, and **PERIPHERAL ILLUMINATION CORRECTION** are available with lenses connected via an M mount adaptor.
- Any changes made using this item also apply in movie mode (205).

FOCAL LENGTH SETTING

Enter the lens's true focal length.

DISTORTION CORRECTION

Choose from **STRONG**, **MEDIUM**, or **WEAK** options to correct **BARREL** or **PINCUSHION** distortion.
