

**5** Press **MENU/OK**.

The combined exposures will be displayed as a guide to composing the next shot.

- If you would like to retake the second shot, press the selector left.
- To end shooting and create a multiple exposure from the shots taken to this point, press **DISP/BACK**.

**6** Make additional exposures.

Each photograph can contain up to nine exposures.

**7** Press **DISP/BACK** to end shooting.

The camera will create the combined image and multiple exposure shooting will end.
