

### Touch Controls for Focus Zoom

Different touch controls are used during focus zoom (focus check enabled).

#### Central Area

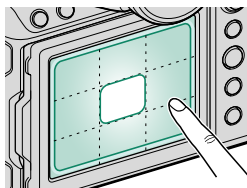

Tapping the center of the display performs the operations below.

Mode	Operation performed
<b>AF</b>	<b>AF-S:</b> AF
	<b>MF:</b> Instant AF
<b>AREA</b>	<b>AF-S:</b> AF
	<b>MF:</b> Instant AF
<b>OFF</b>	<b>AF-S/MF:</b> OFF

#### Other Areas

Tapping other areas simply scrolls the display, whether during still photography or movie recording and regardless of the option selected for touch screen mode.

### FOCUS CHECK LOCK

Choose whether focus zoom remains in effect once movie recording begins.

Options	
<b>ON</b>	<b>OFF</b>
