

5 Press **DISP/BACK** and select **START TRANSFER**.

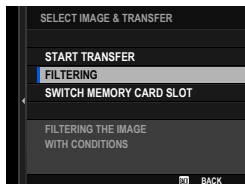

The selected pictures will be uploaded to the FTP server.

Filtering Pictures/Choosing a Slot

To switch to the memory card in the other slot or display only pictures that meet selected criteria, press **DISP/BACK** in the picture-selection dialog.

- To display only pictures that meet selected criteria, choose **FILTERING**.
- To switch to the memory card in the other slot, choose **SWITCH MEMORY CARD SLOT**.

 Switching slots or changing the filter criteria removes any existing upload marking.

- Image transfer orders can contain a maximum of 9999 pictures.
- If **ON** is selected for **FTP OPTIONAL SETTING > IMAGE TRANSFER WHILE POWER OFF**, upload will continue even while the camera is off.
