

## AF RANGE LIMITER

Limit the range of available focus distances for increased focus speed.

Option	Description
<b>OFF</b>	Focus limiter disabled.
<b>CUSTOM</b>	Limit focus to a range of distances defined by a minimum and maximum. <ul style="list-style-type: none"> <li>• <b>OK</b>: Limit focus to the selected range.</li> <li>• <b>SET</b>: Choose two objects and limit focus to the distance between them.</li> </ul>
<b>PRESET1</b>	Limit focus to a preset range.
<b>PRESET2</b>	

- Choosing a focus range that includes distances shorter than the minimum focus distance of the lens disables the focus limiter.
- The values listed and displayed for the focus limiter may differ from the actual focus distance.
- Focus range can be set independently on lenses equipped with focus range selectors. Be sure that the option selected in the camera menus overlaps with that chosen with the lens.

- The following additional operations can be performed when **CUSTOM** is selected:
  - You can tap objects in the touch screen display to choose the focus range.
  - Instead of tapping an object in the display, you set the maximum focus distance to infinity by rotating the focus ring.
- Any changes made using this item also apply in movie mode (📖 202).
