

Multiple Exposures

Create a photograph that combines multiple exposures.

- 1 Select **ON** for **SHOOTING SETTING > MULTI EXPOSURE** and choose a blend mode (📖 176).
- 2 Take the first shot.
- 3 Press **MENU/OK**. The first shot will be shown superimposed on the view through the lens and you will be prompted to take the second shot.

- If you would like to retake the first shot, press the selector left.
- To save the first shot and exit without creating a multiple exposure, press **DISP/BACK**.

- 4 Take the second shot, using the first frame as a guide.
