

Power supply/other

Power supply NP-W235 rechargeable battery (supplied with camera)

Battery life

- **Battery type:** NP-W235
- **Lens:** XF35mmF1.4 R
- **External flash units:** Disabled
- **Shooting mode:** Mode P

Number of shots

PERFORMANCE	LCD	EVF
BOOST ¹	Approx. 570	Approx. 530
NORMAL	Approx. 750	Approx. 750
ECONOMY	Approx. 800	Approx. 750

Total length of footage that can be recorded on a single charge

Mode	Actual battery life of movie capture	Continuance battery life of movie capture
 ²	Approx. 85 minutes	Approx. 120 minutes
 ³	Approx. 80 minutes	Approx. 110 minutes
 ³	Approx. 95 minutes	Approx. 150 minutes
High-speed movies ⁴	Approx. 95 minutes	—

¹ **EVF FRAME RATE PRIORITY (100P)** selected **EVF/LCD BOOST SETTING**.

² At a frame rate of 29.97 fps.

³ At a frame rate of 59.94 fps.

⁴ At a frame rate of 120 fps.

CIPA standard. Measured using battery supplied with camera and SD memory card.

Note: Battery endurance varies with battery charge level and the figures given above are not guaranteed. Battery endurance will decline at low temperatures.
