

Uploading Files via FTP

You can connect the camera to an existing FTP server and upload pictures via FTP.

Connecting to FTP Servers

- Connecting via Wireless LAN (📖 278)
- Connecting via Wired LAN (Ethernet) (📖 281)

Connecting via Wireless LAN

Connect to an FTP server via wireless LAN.

- 1 Select **CREATE/EDIT CONNECTION SETTING > CREATE USING WIZARD** in the network/USB setting menu and choose **FTP TRANSFER**.

- 2 Select **CREATE NEW**.

Choose **SELECT FROM LIST** to select from a list of existing connection setting profiles.

- 3 Press **MENU/OK** when prompted.
