HIGH SPEED REC

Record high-frame-rate movies. High-frame-rate movies can be played back in slow motion, giving you time to view fast-moving subjects or details too fleeting for the naked eye. Select ON to choose the recording and playback rates separately.

Choose **ON HDMI ONLY** to record footage only to external recorders connected via HDMI. Note that this option does not support playback frame-rate selection.

Frame Size

Options				
IID 16:9	FID 17:9			

Playback

Options					
23.98P	24P	25P	29.97P	50P	59.94P

Recording

Options					
100P	120P	200P	240P		

- High-speed movies are recorded with no sound.
 - The footage recorded to the memory card is compressed with the goal of maintaining the selected bit rate.
 - The options available for playback rate vary with the option selected for rate of recording.
