The Quick Menu

## Viewing and Changing Settings

1 Press **Q** to display the quick menu during shooting.

2 Use the focus stick (focus lever) to highlight items.

3 Rotate the front command dial to change.

> To jump to the **EDIT/SAVE CUSTOM SETTING** menu, press and hold the **Q** button when the quick menu is displayed.

4 Press **Q** to exit when settings are complete.

> • The quick menu can also be edited using touch controls.
> • Using **B BUTTON/DIAL SETTING** > **FUNCTION (Fn) SETTING**, you can assign the **Q** button roles normally reserved for the function buttons or assign the **Q** button's default role to a function button (📖 253).
> • To disable the **Q** (quick menu) button, select **NONE** for **B BUTTON/ DIAL SETTING** > **FUNCTION (Fn) SETTING** > **Q BUTTON SETTING**.
