## Using a Function Button (MOVIE RECORDING RELEASE)

Use the function button to which **MOVIE RECORDING RELEASE** is assigned to quickly and easily record movies while in still photography mode.

N The camera automatically enables autoexposure and selects **CONTINUOUS AF** for focus mode.

1 Assign **MOVIE RECORDING RELEASE** to a function button (P 253).

2 Press the selected button to start recording.

• A recording indicator (●) is displayed while recording is in progress.

• The display shows the elapsed recording time.

3 Press the button again to end recording.
Recording ends automatically when the movie reaches 29 minutes 59 seconds or the memory card is full.

N The movie recording release option is intended for point-and-shoot movie recording; camera settings cannot be adjusted.

Temperature Warnings

The camera automatically turns off to protect itself when its temperature or the temperature of the battery rises. If a temperature warning is displayed, image noise may increase. Turn the camera off and wait for it to cool before turning it on again (P 327).
