## Cooling Fans

Cooling fans help keep the camera cool, allowing longer periods of non-stop movie recording.

Attaching a Cooling Fan

Open the monitor and attach an FAN-001 cooling fan.

Q Turn the camera off before attaching or removing the fan.

1 Open the monitor.

2 Remove the camera cooling fan connector cover and the fan connector cap.
After removing the cooling fan connector cover (A), attach it to the fan for safe-keeping. Keep the fan connector cap (B) in a safe place.
