## Attaching the Strap

Attach the strap clips to the camera and then attach the strap.

1 Attach a protective cover.
Place a protective cover over the eyelet as shown, with the black side of the cover toward the camera.

Protective cover

2 Open a strap clip.
Use the clip attaching tool (A) to open a strap clip (B).

3 Slide the clip onto the tool.
Slide the clip onto the tool so that it hooks over the projection.
