## Flash Photography

Use the built-in flash for additional lighting when shooting at night or indoors under low light.

**1** Slide the $\frac{4}{7}$ lever as shown to raise the flash.

**2** Select **FLASH FUNCTION SETTING** in the **FLASH SETTING** menu. The camera will display options for the built-in flash.

!! Sync terminal options will be displayed if the built-in flash is lowered and either no flash unit, or an incompatible flash unit, is mounted on the hot shoe (圖 339). Raise the flash before adjusting settings.
