4 Press **DISP/BACK** and select **START TRANSFER**.
The selected items will be uploaded to Frame.io.

> SELECT IMAGE & TRANSFER
>
> **START TRANSFER**
> FILTERING
> SWITCH MEMORY CARD SLOT
>
> FINISH IMAGE SELECT AND
> START TRANSFER
>
> **BACK**
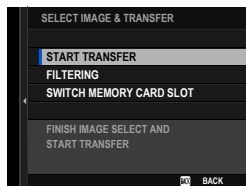

Filtering Items/Choosing a Slot

To switch to the memory card in the other slot or display only items that meet selected criteria, press **DISP/BACK** in the selection dialog.

- To display only items that meet selected criteria, choose **FILTERING**.
- To switch to the memory card in the other slot, choose **SWITCH MEMORY CARD SLOT.**

> SELECT IMAGE & TRANSFER
>
> START TRANSFER
> **FILTERING**
> SWITCH MEMORY CARD SLOT
>
> FILTERING THE IMAGE
> WITH CONDITIONS
>
> **BACK**

Q Switching slots or changing the filter criteria removes any existing upload marking.

- Image transfer orders can contain a maximum of 9999 items.
- If **ON** is selected for **Frame.io Camera to Cloud** > **IMAGE TRANSFER WHILE POWER OFF**, upload will continue even while the camera is off.
